Wānanga on proposed Māori Land Service

22 September 2016

Whatungarongaro te tangata, toitū te whenua.

As man disappears from sight, the land remains.

“To Māori, land is everything. Land provides our sense of identity, belonging, and continuity.”

PROTECTION OF THE WHAKAPAPA

Protection of the whakapapa is the most important thing.

We should hold all unclaimed land dividends to fight in the court against local bodies, the council and government.

So our people know where they come from and can connect to their people, their past, touch base with their mana and give them mauri (life force that unites you and your whenua tipuna).

Why? Because most landowners can't afford to take on these things.

BUILD CAPABILITY WITHIN WHĀNAU

Whānau need access to information that will empower them to make informed decisions around their whenua and options for use.

As a land owner – we want to be able to ring up the Māori Land Service and access a whole lot of information about our whenua. The types of information we need include:

- Title
- Block
- Whether it is in a trust
- Ownership information
- Historical use
- Maps/G.I.S
- Survey/boundary history
- Council impacts
- Current status
- Current use

I have to get info from all sorts of places – it is everywhere and it is hard

My whānau have land in Taranaki, I don't know the state of the whenua or the blocks that were in. I need to be able to ring up the Māori Land Service to get all the information so I can go to the AGM or whānau hui and have some really good information about where our whenua is.

CAPABILITY

Build our own people. A service that is provided BY US FOR US.

Having the service located in the rohe of the whenua e.g. Te Tau Ihu. It has to be where the land is and connect to regional knowledge. It should never have gone away.

This service should be contracted out to one of our entities, that way we become more knowledgeable and we provide the service that is expected of us. *For us by us in our rohe.*

Why:

- Land records should be located with the whenua
- Tikanga
- Kaitiaki tānga
- Rangatahi
- Employment

PEOPLE-FRIENDLY STAFF

Whakapapa, the foundation of it all.

We haven't got time to waste, can not muck around.
We want suitably qualified people and we would prefer them to be Māori.

We need people who have:

- A positive attitude
- A range of expertise who are there to serve.
- Good information and good advice.
- Kaupapa Māori
- No buck passing

We should not discount old and grey because age doesn't mean they don't know.

BUILD CAPABILITY WITHIN MLS AND OUR OWN PEOPLE

Looking at the capability of both MLS and of our people.
MLS Strategy to establish seventeen thousand new entities over Māori land by 2025. Seventeen thousand is the number needed to deal with the unmanaged Māori land that isn't currently governed by legal entity structures.

How MLS brokers relationships to create economic value from the land.

EMPOWER WHĀNAU TO BUILD CAPABILITY AND UNDERSTANDING

We are the future Māori land owners table– I have just taken on land – and pretty anxious about that.

We want MLS to empower whānau to know what is going on, to understand processes and to build capability:

- Legal and financial assistance
- Communication with in the whānau
- Transparency of processes and responsibilities
- Liaise between government and whānau
- Pull together all government departments

Why? It should be easy for whānau to get information these days . These are not our rules we need to see the pathway to do what we need to do. We want to retain ownership of the whenua for whānau and to use it to live sustainably - papakāinga housing.
