How Will We Be Warned

WE WONT get a **WARNING** for an earthquake or a landslide.

WE MIGHT get some **WARNING** of flooding, pandemic, forest or scrub fire, volcanic ash, or tsunami.

FOR A TSUNAMI generated far away from New Zealand, we could get as much as 14hours warning.

We will get a **FLOOD WARNING** from either Civil Defence, the Emergency Response Team, or a member of the community.

WE WILL GET WARNINGS FROM A NUMBER OF SOURCES
These will come from the radio, tv, sirens, text messages, email, social media, or a phone call.

Getting The Word Out

At the back of this plan is a list of people and their contact details who are responsible for contacting five people each - by phone or in person - to make sure information and warnings are received by the entire whānau and hapū.

Tō Tātau Marae Our Marae

Our Marae works because we have a number of infrastructure that supports it. What would happen if these weren't available, and what would we use instead?
